DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-25, 40 and 41 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for hydrophilic, nonionic polyester softener, does not reasonably provide enablement for any hydrophilic nonionic softener. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. See page 10, lines 29-32, which says: "Nonionic hydrophilic softener (c) is a polyester additive that improves the soil release properties and anti-static properties of the oil and water repellent composition". There is no mention of any other softener in the specification.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-6, 8-11, 13-15, 17-19 and 21-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. The expressions "greater than about" and "les than about" render the claims indefinite. It has to be either "less than" or "about" or "greater than" or "about", not both.

Art Unit: 1714

1.9 is "about 2". Accordingly, 1.91 is "greater than about 2", which is absurd. See, Amgen, Inc. v. Chugai Pharmaceutical Co., Ltd., 18 USPQ 1016 (Fed. Cir. 1991).

6. Yamana et al. 6,750,277 is cited as of interest.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
